This is an R markdown template for an informal report with no title page, resembling in format article manuscripts submitted to journals in political science or economics. It is intended for use with the corresponding latex template `informal-report-template.tex`. It is heavily indebted to Steven Miller's article template at <https://github.com/svmiller/svm-r-markdown-templates>, but has accumulated various changes (sometimes enhancements) as I've used it. It is free for anyone's use under the terms of the MIT license; see `LICENSE.md`.
